J.G. Carter's Sunset Series ~

J.G. Carter, an accomplished watercolorist, has a penchant for New Mexico sunsets. J.G. brushes in his colors directly, without masking areas, on his full-sheet, 300 lb. watercolor paper. He often starts with a background wash to set a sky tone. Later cloud forms may be dry-brushed in, while others are built up as washes. Opaque hues are reserved for the earth forms- hills, deserts and plains. Says J.G., "*New Mexico is the best place in the world to be painting.*" His watercolor images tend to the fluid, bold and impressionistic. The feeling ranges from brightly optimistic to introspective.
